HOW *The Bluebird* TOOK FLIGHT

Prior to leading The Bluebird, Chef Bill Hawkins served as executive chef to Elvis Presley Enterprises and nationally-ranked golf resort Victoria National Golf Club. He has appeared on the Food Network with Bobby Flay, the Discovery Channel, the Travel Channel, & many other Kentucky television stations. In 2011, a sudden & steep decline in health lead Chef to study natural foods. He found that the more he eliminated harmful chemicals from his diet, the more his health improved. Around the same time, Jess & Angela Correll were searching for an executive chef for their new restaurant, set to focus on local foods & feature naturally-processed meat from nearby Marksby Farm. Upon meeting, it was clear to Chef Hawkins & the Corrells that their values were aligned. From their partnership & commitment to the same vision, a Bluebird was born.
